

SPACE & BEYOND!

After-school programs

SLIPPERY SCIENCE

Slippery, eewy-gooey creatures and chemicals are often featured in science fiction movies about space exploration. In this class we explore slippery, slimy, gooey things and what they are made of and kids take home their own eyeball-like orbies to grow.

GREAT GRAVITY

Learn about the amazing attributes of gravity through hands-on activities and cool demonstrations. We will show you how to get a bouncy ball to float above the table and you will take home your own mini sky diver.

SUN AND STARS

This stellar program is your ticket to the stars! Watch star dust burn, and journey through a soapy galaxy as we investigate the life cycle of stars!

PLANETS ROCK!

What are planets made of? Mostly rock, which are in turn made of minerals. Learn all about them, their characteristics, and how to sort them. Take home your own gemstones, make a model volcano and more!!

PLANETS AND MOONS

Explore the farthest reaches of our solar system and create a lunar eclipse in this "mad" planetary tour! Build your own 3-D solar system puzzle to take home.

ATMOSPHERE AND BEYOND

We're on a mission to explore the atmosphere on Earth and beyond as we discover how planets differ. Join us and travel to the end of the rainbow and make a sunset!

SPACE PHENOMENA

Probe the mysteries of meteors in this phenomenal program on space events! Launch a satellite and watch as we create a comet right before your eyes!

ROCKET SCIENCE

This is your chance to be a rocket scientist and take home your own rocket!! Learn about the four forces of flight with the help of a Unique Flying Object!

SPACE TRAVEL

Learn what it takes to be a true globetrotter! Race a balloon rocket and learn all about the power of thrust! See the principles of propulsion at work as you witness a real rocket launch!

SPACE TECHNOLOGY

Discover which everyday objects were designed for use in space! Steer a laser beam through a laser maze and use radar technology to find hidden mountains!

LIVING IN SPACE

Live the life of an astronaut as you suit up for space flight! Learn cool facts about life in space and find out what its like to participate in a space mission!

ALIEN I-MAD-GINATIONS

See examples of earth-like planets scientists have discovered by telescope! Discover new worlds with different environments and design and take home your own model alien inhabitant!

Kids bring home a cool science take-away every week!

**Topics and sequence may vary!*

Give your child the best **BIRTHDAY PARTY EVER!**
