

Broad Brook (Sponsored by E. Windsor Parks and Rec)

Child's Name: _____ Parent(s) Name: _____

Parent Email: _____ Tel. (H): _____ (W): _____ (Cell): _____

Teacher's Name: _____

Child's Age _____ Grade: _____ Gender: _____ DOB: ____/____/____

Parent's Address: _____

City: _____ State: _____ Zip Code _____

My child will be picked up by (name of pickup) _____ Phone: _____

My child will walk My child will attend after-school care

I am interested in being a parent volunteer. (Please note we will only contact you if you are needed.)

Emergency Contact: Other than adults listed above _____ Phone: _____

Health Concerns _____

PAYMENT: Credit:MC/VISA: _____ - _____ - _____ Amount _____

Exp: ____/____ Name: _____ Signature _____

Pay by check Payable to MAD SCIENCE Amount \$ _____

Mad Science at Broad Brook Elementary

Sponsored by E. Windsor Parks and Rec

Crazy Chemworks - 10 WEEKS 3:45 - 4:45pm

Grades K-4 Tuesdays 2/25-5/6

No classes held 4/15

Cost: \$149

SPACE IS LIMITED!

TO REGISTER: Return form below with full payment and mail or bring to

Parks & Recreation: 11 Rye Street, Broad Brook, CT 06016

CHECKS are payable to Mad Science of Western New England

Forms must be returned by Monday, February 17th!

For more info on Mad Science go to westnewengland.madscience.org

After-school programs

Winter-Spring 2014

CRAZY CHEMWORKS

See Reverse Side for Registration Information

LAB WORKS

Try your hand at being a real Mad Scientist in this exciting program all about how a lab works! Learn to manipulate laboratory equipment at your own personal lab bench. Take home a super-cool Scientific Cylinder to continue researching at home.

pH PHACTOR

Slide down a colorful pH scale & dip into the world of acids & bases. Discover whether liquids found in your home are acids or bases. Explore chemistry extremes with your Mad Science Reaction Tube.

SLIME TIME

Ooze into a gooey hour of creating slime using the secret Mad Science recipe! Experiment with polymers, get a chance to enter your creation into the Slime Olympics with your slime take-home.

SUPER STICKY STUFF

Push the power of glue and tape to its adhesive limits in this hour-long "bonding" extravaganza! Create a new ooey, gooey friend in your sticky Professor Beakerdude!

CHEM IN A FLASH

Hop on the chemistry express. Create instantaneous reactions and bring home your own Mad Science Action Flask to continue experimenting at home!

THE GLOW SHOW

Amazing discoveries will come to light in this class about all things that glow bright. Probe the properties of ultraviolet light and take home our Glow Card with a collection of phosphorescent items.

Kids get a cool science take-home every week!

Mad Science of Western New England
Sparkling Imaginative Learning

Give your child the best

BIRTHDAY PARTY EVER!

DRY ICE CAPADES

Manipulate matter in its three states. Melt metal with water and turn water into ice with just a breath of carbon dioxide! Take home a temperature testing Thermocolor Cup.

JUNIOR REACTORS

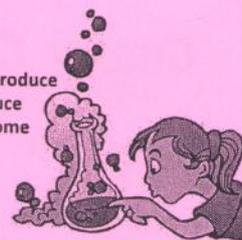

Create a tiny world of atoms, molecules and particles with your very own set of Atomic Coins! Learn to recognize chemical reactions and mix up a few "bubbling potions" for some sensational results!

KITCHEN CHEMISTRY

Food, nutrition and digestion is a science, and this science includes lots of chemistry! Kids will experiment with different kinds of food chemistry and model how digestion works. Then they'll take home their own Digestor Inspector.

CHE-MYSTERY

Discover mysterious chemical combinations that produce amazing and surprising results! Form crystals, reduce foam to goo, make marbled masterpieces! Take home our Dynamic Dish for home experiments.

MATTER OF FACT

Everything's made of atoms and molecules, and in this class you'll make molecular models and learn how they interact. Then you'll make/take home your own Mad Science putty.

PLANT CHEMISTRY: PHOTOSYNTHESIS

It isn't easy being green! A hands-on look at how plants use chemistry to turn light into energy. You'll take home a seedling to grow and perform your own home lab experiments.

*Note not all topics may be covered depending on length of program.
