Empty Containers		

**Safe Handling Tips**

- Whenever possible, bring materials in their original containers.
- Don't mix different products together in one container. Some of them may react violently with each other.
- If possible, pack containers separately in absorbent material to prevent breakage or leakage.
- Bring rags/towels in your car to clean up any spills.
- If a leak or spill occurs en route to site, stop car, wipe up substance, and open windows to vent fumes. Bring rags/towels to collection site for disposal
