7. COMMUNICATIONS:

Chairman Corso stated the only thing she had was a flyer from Cirma about their annual meeting of members. She put it on the table for anyone to look at.

8. MONTHLY REPORTS:

A. Town Financial Reports:

Amy O'Toole, The Town Treasurer, gave a brief report on the Town's financials. She stated that there was nothing different from last month. The only thing of significance was the Annual Report cost \$2,900. There was only \$1,500 in the budget so she wants to take the rest from Print and Toner in the Selectmen's budget. She also stated that the Board of Selectmen Professional Fees has almost no money left. It is going to have to eventually be covered from somewhere else. \$3,500 was spent on an environmental study on the Mill and \$1,500 on the Mill report. There are other things in that account that will need to be paid from there. The biggest being \$6,100 for their Recording Secretary.

B. CIP Analysis 12/31/18:

Amy stated that there is a new analysis this month, it is about Contributions In. These are in such places like Open space and Sidewalks, these are from developers that pay in so they don't have to have sidewalks or open space. If the Police Department sells cars the money from the sale would be money contributed in. Expenditures are what they have spent this year and what the balance was as of 12/31/18.

He also spoke about hemp farming and handed out an article he brought. To see the article, it is hereto attached as Attachment A (3 pages).

10. BOARD OF EDUCATION UPDATES AND REFERRALS:

Hemp as an Agricultural Commodity

in a range of composite products. Hempcrete (a mixture of hemp hurds and lime products) is being used as a building material. Hemp is also used as a lightweight insulating material and in hemp plastics and related composites for use as a fiberglass alternative by the automotive and aviation sectors. ¹⁰ Hemp is also promoted as a potential biodiesel feedstock ¹¹ and cover crop.

These types of commercial uses are widely documented in a range of feasibility and marketing studies conducted by researchers at USDA and various land grant universities and state agencies. (A listing of these studies is in the **Appendix A**.) Currently, finished hemp products and raw material inputs are mostly imported into the United States and sold for use in further processing and manufacturing for a wide range of products.
