## Inter Office Memorandum

To: Amanda Calve  
Assistant to the Town Planner

Date: 28 April 2020

From: E.Arthur Enderle III, WPCF Superintendent

RE: 63 Newberry Rd

The East Windsor Water Pollution Control Authority has received an application for 63 Newberry Rd. This is application COM2020-002. At the present time there is adequate capacity within the collection system and treatment plant to accept this additional flow.

I have reviewed the plans and find the proposed sewer connection to be acceptable. Please let me know if you need anything further at this time.

Regards

Art E III
