

We would like to thank all those that played, coached and helped with East Windsor Youth Basketball this past season.

Under the current conditions we face with COVID, our schools have been cautious and as a result, we are that much safer due to their efforts.

As you know, our basketball program relies on the school facilities for us to provide basketball to our youth.

At this time, we do not foresee starting the program any earlier than after the Christmas holidays.

Decisions will be based on DPH and CIAC guidelines and some of that guidance would include the issue of spectators indoors.

We have maintained a continuous line of communication with the school administrators and our Parks and Rec director and will continue this practice as the school year progresses.

Updates will be provided once our school district makes decisions about winter athletics and spectators or makes any changes about having visitors in the schools.

Information will also be posted on the East Windsor Parks and Rec website and Facebook page.

Again, thank you for being part of East Windsor Youth Basketball

Ted Szymanski, President
Bill Raber, Treasurer
