

# **TOWN OF EAST WINDSOR**

FIRST SELECTMAN JASON E. BOWSZA

January 4, 2022

Good evening,

This is First Selectman Jason Bowsza reaching out to all residents in the Town of East Windsor.

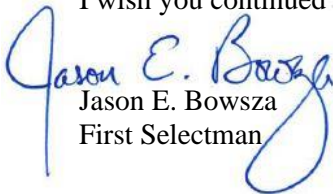

This is a reminder that the Town will be providing COVID-19 testing tomorrow, January 5<sup>th</sup>, from 9am to 1pm at the Town Hall Annex, located at 25 School Street. Testing supplies are limited, so they will be offered on a first come first serve basis while test supplies last. This is a drive-up testing. Please follow all appropriate street signage. Test administrators will come right to your car.

At tomorrow's testing event, we will also be providing two free N95 masks to any East Windsor resident. After tomorrow, masks can be picked up at the Town Hall and the Town Hall Annex Monday through Thursday from 12:30 to 4:30, or on Saturdays from 10am to 3pm at the Warehouse Point Library. Each resident will be provided two N-95 masks per ID.

I and many other municipal leaders have called on Governor Lamont to set one state-wide policy pertaining to COVID prevention efforts, including mask mandates. In the absence of any action from the governor and based on extremely high COVID numbers in our community, I am ordering an indoor mask mandate in any indoor space in East Windsor that the public may access. This order will be effective beginning on Friday, January 7<sup>th</sup>, 2022. The only exceptions to this will be children under two years old or when people are seated and eating or drinking in a bar or restaurant, or when someone has a valid written exemption from a physician.

We're going through the Omicron wave of COVID-19 now. This will pass, and we will see healthier days. We just need to get through this as a community, with concern for the health and well-being of our family, friends, and neighbors.

I wish you continued good health,

  
Jason E. Bowsza  
First Selectman
