Participants should bring snack, lunch, water bottle and a great attitude!

It's slime time as we spend a week with students to create new slime recipes that are only limited to your imagination! Our popular Slime Week teaches students the basics of how to make their own slime, and then shows students some of the most popular and trending slime recipes. Some of the slime is even edible! Our coordinators show students the latest slime tips and tricks and encourage creative thinking and working with friends.

Students can customize their own slime by adding colors, scents, and textures. Once the slime is made, students can mold and play with their new creations. Slime Week lets kids get their hands dirty and have fun, but leaves the mess in the classroom and out of the car and home!
